

Build empathy UNEARTHING THE ENVIRONMENTAL IMPACT OF HUMAN ACTIVITY: A GLOBAL CO2 EMISSION ANALYSIS

Says

What have we heard about CO2 emission?

Thinks How Emission of CO2 affects?

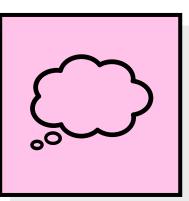

Does it increase of global population?

Increase of consumption of fules?

Due to increase of globlization it causes climate change

Depletion of Ozone layer

Due to increase of pollution factors?

Exposure to CO2 can produce more environmental hazardous

A GLOBAL <u>CO2</u> **EMISSION ANALYSIS**

Does The main causes of CO2 emission?

Carbon dioxide concentrations are rising mostly because of the fossil fuels that people are burning for energy.

Due to the increase of industries it release CO2 and it affects environment

we can replace CO2 by hydrogen gases

If we reduce the usage of vehicle we can reduce the emission of CO2

To be alternative for the

Feels

CO2 gas

The inadequacy of sustainable energy development

we can replace the vehicles by electric vehicles it causes no emission of co2
